**The 7th grade curricula for ELA, Science and Social Studies are organized as 2 year loops. During the course of the 2 year loops students are exposed to learning that addresses each grade level standard in both subjects.*

The 7th grade curricula for Math, ELA, Social Studies, and Science are self-paced allowing students to work at their personal growth rate and the units above, while in sequence, are not on a set timeline. Self-paced work is supported by small group (based on student need) and whole group instruction.
